- EDoF-toric: FEMTIS® Comfort Toric

Literature Highlight

Experts present their latest findings on the varifocal ACUNEX® IOL family

Six world-renowned ophthalmic surgeons describe their current clinical results and experience with the unique ACUNEX® intraocular lenses: Manfred Tetz (MD), Harvey S. Uy (MD), Tobias H. Neuhann (MD), Matthias Müller-Holz (MD), Detlev R. H. Breyer (MD) and Jorge L. Alio (MD, PhD) discuss each lens in length and review their newest findings.

The collected results and insights of these surgeons are published in the September issue of „Cataract & Refractive Surgery Today Europe“ in a 16-page supplement.

Do not miss it!

eACADEMY

Bundled knowledge around the Teleon solutions

The Teleon eAcademy offers comprehensive information on Teleon products and solutions: from product information to study results, publications, and case studies to recordings of webinars and other videos.

We have structured the information for you according to typical treatment procedures/indications.

Immerse yourself here:

<https://www.teleon-surgical.com/en/international/eacademy/eacademy-public/>

The screenshot shows the Teleon eACADEMY website. At the top is a navigation bar with the Teleon logo and links for HOME, PRODUCTS, eDS+eIFU, eACADEMY, ABOUT US, NEWS, JOBS, CONTACT, DE, and EN. Below the navigation bar is a large banner with the Teleon eACADEMY logo and the text "INFO HUB FOR ALL TELEON SOLUTIONS". The banner also features several circular icons representing different aspects of the academy. Below the banner is a row of five green buttons: Standard cataract, GOLD standard cataract, FEMTO cataract, Astigmatism, and Presbyopia. The "GOLD standard cataract" button is selected. Below the buttons is a section titled "GOLD standard cataract" with a description of the treatment and a list of unique lenses. The list includes ACUNEX Vario IOL, LENTIS Comfort IOL, and Literature.

Standard cataract GOLD standard cataract FEMTO cataract Astigmatism Presbyopia

GOLD standard cataract

With a standard intraocular lens patients get good cataract treatment outcomes, however, new Comfort and EDOF intraocular lenses offer better visual quality and more spectacle independence in everyday situations such as daily computer work, shopping or driving.

These gold standard solutions include unique lenses such as LENTIS Comfort and ACUNEX Vario.

Web & Social Media

Work in Progress: LENTIS® & FEMTIS® will move to www.teleon-surgical.com

After Teleon acquired the LENTIS® and FEMTIS® product licenses, we will successively put all relevant product information on our website.

The LENTIS® Comfort and LENTIS® Mplus lenses will be the first lenses to appear. So, stay tuned for this exciting update.

Furthermore, all LENTIS® & FEMTIS® datasheets and respective eIFU documents are available at www.lentis-eifu.com

Detailed product and event news will be posted on our LinkedIn channels too

Events

ESCRS 2020 goes virtual

We are pleased that **ESCRS 2020** was not cancelled but will go virtual from Friday 2nd to Sunday 4th October.

Feel free to visit our 4 booths. We created a Teleon, a LENTIS®, an ACUNEX® and a FEMTIS®/LENSAR booth to make it as easy as it gets to find the relevant product information you are looking for.

Events

Teleon's International User Meeting goes virtual too

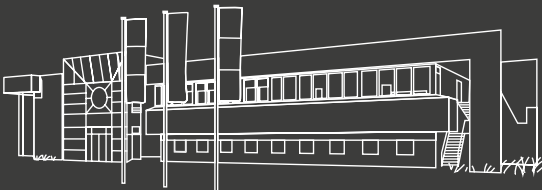

We are delighted to be offering an exciting **International User Meeting** on October 2nd 2pm CET. Join us online for an exciting 2h program packed with various highlights such as a tour through the new factory building, high class education and Q&A sessions.

Join us online. You will experience an online event like never before. Find all registration information on **[teleon-surgical.com](https://www.teleon-surgical.com)**

If you have missed the event please visit our website where a video of the event will be available: **www.teleon-surgical.com**
