Gerd Wirtz, PhD

Detlev Breyer, MD

Prof. R. Khoramnia, MD

Teleon International User Meeting 2021

An exclusive educational and fun Online Live-Event

Friday, 8th October 2021, 2:30 pm to 4:00 pm

Live broadcast from the Teleon manufacturing site, Spankeren, The Netherlands

TECHNOLOGY, INTEGRITY, SUSTAINABILITY

After last year's virtual User Meeting and streaming our take on "Oktoberfest" globally, this year, we are eager to welcome you again online! We will hold a LIVE exclusive and fun online event from our factory in Spankeren. The theme 2021 may be different, but our goal is the same: We want to show you who Teleon is and what it stands for. We want to give you insights in our unique IOL technologies and let you glimpse our high-tech manufacturing site.

The packed programme features scientific presentations and a freezing Keynote: **Dr. Janin Schaffer**, participant of **MOSAIC** (Multidisciplinary drifting Observatory for the Study of Arctic Climate), will talk about one of the largest-scale Arctic research expeditions of all time, which gathered data to take climate and ecosystem research to the next level. As a company, striving to leave a balanced and eco-friendly footprint while doing business, we applaud all efforts to bring Earth's ecosystem back on track.

Moderator: Gerd Wirtz, PhD

Med. Education - Speakers	Title
Janin Schaffer, PhD	Keynote
