

# We are hiring!

Always wanted to work in the Medical Device industry? Teleon; an international fast-growing, dynamic company that strives every day to improve vision for patients, is looking for you. Are you familiar with designing medical device products and do you strive to design according to the latest regulations? Then read on, because we are looking for an (optical) R&D Engineer.

## R&D Engineer (Optical)

### Your role

As an R&D engineer, you will be responsible for designing and developing new products and processes as well as optimizations to existing ones. Next to the design of the product/ process and its verification and validation, you will also be responsible for providing comprehensive design documentation that complies with EU MDR requirements for medical devices.

### Your profile

You are creative and think in terms of possibilities and solutions. You show initiative and take responsibility. You have strong analytical skills, allowing you to make connections and draw clear conclusions. You can work well with CAD development tools, preferably SolidWorks. And you have knowledge of various product technologies applicable for optical devices; e.g. lathing, milling, injection molding. Do you have a bachelor's or master's degree in optical engineering, design engineering, mechanics or similar and have more than 5 years of work experience in optics and/or the medical field? Then you are a great addition to our team!

### What do we offer

At Teleon, we value development. Not only of our innovative products but also of our employees. We are therefore proud to offer all of our employees the opportunity to grow and further develop as professionals. This is one of the many reasons why so many of our employees enjoy working here and build long and successful careers with us.

### This is what our employees say:

**Jitka, R&D Engineer:** *"All aspects are in house, you make the complete product from A to Z, if you have a good idea anything is possible, hands-on mentality."*

**Esther, QA Officer:** *"Good working environment, dynamic company and a fantastic product."*

### Why work at Teleon?

- A challenging job with an innovative employer.
- An excellent working atmosphere and an active staff association.
- An appropriate monthly salary plus 8% holiday allowance.
- 30 vacation days + option to purchase.
- A variable bonus up to 10% of your total annual salary.
- A good pension plan with low salary deductions.

### The organisation

Teleon Surgical B.V. is a dynamic, innovative company specializing in state-of-the-art Intra-Ocular Lenses and accessories for eye surgery. We have a dedicated team of 180 international professionals working at our three locations in Spankeren (between Arnhem and Apeldoorn), Berlin and Leverkusen. Thanks to our long experience of more than 35 years in the intraocular lens industry and our own in-house R&D division and state-of-the-art production facility in Spankeren, we are a leading player in the development of technological solutions for eye surgery.

### Curious, but need more information?

Then contact Adien Dam (R&D Manager) at +31 (0) 313 725 218 or Kim Konings (HR) at +31 (0) 313 725 652 or email your questions or application to [jobs@teleon-surgical.com](mailto:jobs@teleon-surgical.com). Will you be the next member of our enthusiastic team?
