Virtual WOC 2020 Video Symposium

Refractive EDOF IOLs - Setting a higher standard for visual performance and quality

CONTACT

TELEON®

Date: 27.06.2020 (Saturday)

12:00 pm [noon] (Berlin), 6:00 am (New York), 8:00 pm (Sydney)

Speaker: Detlev Breyer, MD, Germany

Title: Enhanced depth of focus = NEW standard of care over monofocal

- Definition EDOF and varifocality
- Advantages of refractive MIOL optics vs diffractive optics
- Refractive vs diffractive MIOL
- Clinical results with refractive EDOF lenses

Speaker: Patrick Versace, MD, Australia

Title: Functional vision – What compromise must we make

- Presbyopia correcting options
- Advantages of refractive vs. diffractive MIOL
- Comparison of various EDOF lenses for unwanted side effects
