What is Tixel ?

- A novel fractional system powered by Novoxel's patented titanium tip technology.
- Tixel employs direct heat and is radiation-free.

Why Tixel ?

- Treats periorbital wrinkles
- Superior and lower eye lids can be treated safely
- Non-radiation technology – safe for eyes
- Controlled direct eyelid skin surface heating by conduction
- Precise locus heating
- Low energy treatment
- Sterile tip prevents cross contamination during treatment
- Fast treatment
